BREAKING NEWS! Two Connecticut State Troopers have now confirmed to Wolfgang Halbig that an 11,000 page document in his possession was “the script” for the [Sandy Hook fake shooting](#).

The document details virtually every aspect of the staged event that would be presented to the public [as though it had been a real shooting](#) where 20 children died. *This is “smoking gun” evidence.*

The script even includes sworn statements from 16 Connecticut state troopers, including that they had entered the building through the shattered window at the school’s entrance. Those statements appear to be blatantly false.

Early photo of front window damage

No one who has seen [photos of that window](#) could possibly believe that such a large number could possibly have made an entry through that opening without risking harm to themselves or cutting their clothing. This is not something that trained Connecticut law enforcement officers would have done.

Notice that the hole in the official crime scene photograph (below) is considerably enlarged from that in early video footage (above). Since no one was filming that hole before it was created (officially, during the entry by Adam

Lanza), why is it so much larger in the crime scene photograph? *The photo above has to be what it looked like after the scene had been secured.*

Wolfgang, a former Florida State Trooper, observes that no trained officer would enter through a broken window without breaking it out completely with his metal baton. *The difference between the official photo (below) and its original appearance (above) appears to be proof of the destruction of evidence. And that has to have been done by the Connecticut State Police.*

[NOTE: Wolfgang and I were featured on “Veterans Today News Report” with Stew Webb between Noon and 1:15 PM/CT, [which you can listen to at this link](#) . In my opinion, Sandy Hook is even bigger than Watergate!]

Information that should warrant a Grand Jury Investigation

by Wolfgang Halbig

Here is a sample of the kind of information that I now have in my possession, which ought to justify calling a Grand Jury by the Attorney General of the State of Connecticut. I am providing the text of ten affidavits by Connecticut State Troopers, most of which cannot be true because they describe making their entry into Sandy Hook Elementary School by way of a relatively modest hole in the front of the building.

Official crime scene photograph of the front window access point

No trained law enforcement officer would have entered that window without first breaking it out using his baton. When you have so many sworn law enforcement willfully and knowingly lying in sworn affidavits regarding the Sandy Hook School “shooting”, it would appear incumbent upon the [Governor of Connecticut](#) and the Connecticut State Attorney to open an investigation of the conduct of the investigating authorities.

Moreover, while they may not realize this, but even a dead Adam Lanza deserves his day in court to prove his innocence in light of all the intentional lies by police and their supervisors in their witness statements. [Editor’s note: And in relation to the kind of evidence that has been presented in [a series of articles published here at Veterans Today](#).]

This photograph (like the one immediately above) was taken by the Connecticut State Police Crime Lab on 14 December 2012 as an official crime scene photograph. Ask yourself about the truthfulness of the ten following affidavits, which I have taken from the Sandy Hook script to illustrate why their statements are not credible and appear to be false, which means that those who signed them may have committed perjury. Here is the content of their affidavits with my comments:

On 12/14/12 at approximately 0930 hours, I was parked at Troop A writing a report in my vehicle. Dispatcher Brennan put out a radio transmission that there was an active shooter at a school in Newtown. I put my vehicle in gear and headed westbound on 1-84. I asked dispatch which exit to use to get to the school.

As I approached the front entrance of the school, I observed the broken glass on the ground near the doors. I observed several troopers and police officers inside the lobby of the school. I entered the school through the broken glass window on the right side of the main doors.

WHY? How is that possible when they the police officers inside could have opened the doors and not disturb the crime scene? Here is another unbelievable sworn police officer's statement:

Action Taken: On 12/14/2012 at approximately 0930 hours, I was at the Woodbury Resident Trooper's Office completing paperwork, when I heard Troop L broadcast that Newtown was responding to an active shooter incident. Upon hearing this, I left my office and responded towards Newtown in my assigned cruiser.

I arrived at the scene.

As I pulled into the parking lot, I parked my vehicle away from the main entrance and behind several rows of cars that could be used for cover.

I exited my vehicle and retrieved my shotgun from the trunk and observed TFC Blumenthal #690, do the same. We then proceeded towards the main entrance of the building.

As I approached, I observed a large hole in the glass window to the right of the main doors, which were closed. TFC Blumenthal and I entered the building through the hole in the glass window.

WHY? How is that even possible when that window has shattered glass everywhere and could seriously injure someone by all the broken hanging glass? It is alleged to be a crime scene.

On December 14, 2012, I was the day shift supervisor at Troop A. At 0937 I was in my assigned cruiser in the Kmart Plaza, South Main Street, Southbury, when I heard the first transmission from Dispatcher Betsy Brennan of an active shooter at the Sandy Hook School, Newtown. I made my way to 1-84 west via the #15 on ramp as I instructed all my western patrols toward the school, with the eastern patrols to start heading in that direction (CSP radio time: 09:37:38). I also told my deskman, TFC Chris Kick #811, to get an address for us so that we did not have to look for it.

While en route, Regional Dispatch Deskman TFC Loomis broadcasted more than once that the shooter was in the main office area.

As our cars were coming to a stop, Lt. Hofbauer radioed that he and Msgt. Davis had arrived (CSP radio time: 09:46:30). I did not sign off at the scene. We immediately exited our cars and ran toward the school's entrance with our handguns drawn. Lt Hofbauer ran along the driveway, in front of parked cars.

Msgt. Davis and I ran behind this row of parked cars and then turned left, between parked cars, to run toward the front door. We all re-grouped as we got closer to the entrance. I could not clearly see through the glass, but I could see a very large hole shattered in the glass to the right of the main doors.

I remember considering that the front doors might be locked, and I did not want to stop moving until I was somewhere with cover. I know that I considered going through the window. As we approached the door I remember seeing Lt. Hofbauer's hand grab the door handle, and that I was off to his right. I do not remember how I entered the school, but it may have been through the window.

HOW CAN YOU NOT REMEMBER? The lie comes in a later report. How can a sworn trained police officer not remember how he and the other officers entered the school on Dec 14, 2012?

On 12/14/12 at approximately 0935 hours, I was in my assigned cruiser off duty in the Town of Southbury when I heard a radio broadcast for an "active shooter" at the Sandy Hook Elementary School, 12 Dickinson Street, Newtown, Connecticut. I immediately responded to the school,

following the directions that were being broadcast over the radio. I arrived a short time later, at the same time as Trooper Cipriano. When I arrived at the school, I observed several civilians behind the parking lot on Dickinson Street.

I then recognized Detective Mudry running toward the main entrance of the school. Detective Mudry called out to me and Detective Mudry and I entered the main entrance of the school either through the front door or the broken window.

How is it again that sworn trained Ct State Police officer cannot remember how they entered the school on one of the most tragic school shootings in Elementary School history?

Trained Connecticut State Police Officers broke every cardinal rule of law enforcement, especially when they are observing other officers already inside the school.

On 12/14/12, I was working as the Troop A desk trooper. I was at the front desk at Troop A when the "bat phone" rang at approximately 0936 hours.

I answered the phone and was greeted by Disp. Betsy Brennan. Brennan informed me that there was a shooting at Sandy Hook Elementary School.

Upon arrival to the school, I entered the school parking lot from Dickinson Dr. and traveled to the right side of the parking lot.

I drove to the far end of the parking lot and positioned my vehicle on the front right corner of the school, near the front doors.

I exited my vehicle and ran across the front of my vehicle to the front doors of the school. Upon approaching the front doors, I observed that the windows to the right of the doors were broken and glass was on the ground outside of the school.

I am not sure if I checked the doors to see if they were locked but I eventually entered the school through the broken glass windows. As I climbed through the windows, I observed a Newtown officer to my right.

WHY THROUGH THE GLASS WHEN YOU ALREADY HAVE POLICE OFFICERS INSIDE? Trained Connecticut State Police Officers again having to enter the front of the school through the broken shot-out glass window makes no sense. Why do that? Police are already inside.

On 12/14/12 at approximately 0935 hours, I was in Southbury, CT when Troop A dispatch put out a broadcast that there was an active shooter situation in Newtown, CT. I traveled westbound on I-84 and exited at exit 10.

When I arrived, I went to the front left corner of the building and met with TFC Benecchi. Benecchi and I proceeded across the front of the building to the front door. As approaching the front door, I noticed a hole in the glass window on the right side of the front doors.

Benecchi and I met Lt. Hofbauer and MSgt Davis at the front door. We all entered the building through the broken window and entered into the lobby of the school.

WHY? This is a Lt and and a MSGT who should know better. These four CT State Troopers would have disturbed the furniture inside the school, since the hole in the glass was not very large.

[READ MORE Florida teens laugh as a disabled man drowns in lake and dies: Video](#)

They should have moved the furniture for others to enter if that was really their intent or again just more lies. Not one of them removed the remaining glass in order to prevent them from being seriously cut by the broken glass. Why is the furniture still in place after all of those Connecticut State Troopers entered via that broken glass window?

SUPPLEMENTAL REPORT: INITIAL RESPONSE TO SCENE

ACTION TAKEN:

On 12/14/12, I learned of an "active shooter" at Sandy Hook Elementary School, 12 Dickinson St. Newtown, CT from Lt. DeNecchia.

I then recognized Det. Zullo crouched behind a dumpster on the side of the school with his long gun in a down range position. I called out to Det. Zullo to make entry into the school.

We entered the main entrance through either the front door or broken window.

So this guy can't remember whether he entered through the front door or the broken window? If you had been there, is that something that you would have been unable to recall?

On 12/14/12, at approximately 0930 hours, I was on Route 8 Northbound near Exit #32, in Waterbury. Troop A Dispatchers broadcasted the report of an "Active Shooter", in Newtown.

Sgt Roden and I approached and joined an entry team. Utilizing the blown out window, we joined other officers and entered/secured the lobby area.

Why would so many CT State Troopers enter the broken glass window when other officers are already inside? Why go through the broken glass window exposing you to serious injury?

I have to stop because, as a former Florida State Trooper, having to read these police officers' witness statements

as to their actions on 14 December 2012 is an insult to every police officer who puts his or her life on the line of duty everyday.

They are using children and school staff as props in their conspiracy and causing a National Moral Panic across our United States. [Editor's note: Indeed, since terrorism entails instilling fear into a population in order to make it more amenable to political manipulation, this was an act of terrorism.]

Every school district, private and parochial, is now having to deal with Sandy Hook, when it has become increasingly evident, as I believe, that Sandy Hook was a drill, based upon the 11,000 page script that I now have in my possession, which was followed on 14 December 2012.

The script is next and then on to *The Newtown Bee*... Get ready *Newtown Bee*.
